

# How to Establish a Local Union Voter Registration Program

## STEP 1

### Assign a point person to lead the local's voter registration program

- Communicate program plan to your local political coordinator (PC), if assigned point person is not the PC

## STEP 2

### Evaluate the registration status of your members

- Request access to the Labor Action Network (LAN) for your political coordinator
- Obtain a list of unregistered voters in your Local from the LAN, or request from the Political/Legislative Department ([polleg@iatse.net](mailto:polleg@iatse.net))

## STEP 3

### Learn and comply with the voter registration rules in your state

- Visit [www.vote.gov](http://www.vote.gov) and follow the link to your state
- [Look up online voter registration](#) rules in your state

## STEP 4

### Review and share your state's registration deadlines and election dates

- Visit the [IATSE Voter Toolkit](#) to confirm voter registration and absentee ballot deadlines, election and early voting dates, voter ID requirements, polling locations, and more

## STEP 5

### Register your members

- Print [voter registration forms](#) and learn the required fields
- Set up a registration table at local meetings and events
- Share voter registration resources on your website, in your newsletter, and on social media
- Recruit volunteers from your local to assist in reaching out to potentially unregistered members with a phone bank or peer-to-peer text bank (reference the [How to Establish a Local Union Phone/Text Banking Program](#) for suggestions and sample scripts)

## STEP 6

### Share success and build momentum

- Share photos on social media and email to [polleg@iatse.net](mailto:polleg@iatse.net)
- Use #IATSEVOTES and tag @IATSE in social media posts
